PAPERBUS STEENWOL PLUGGEN

Onze paperbus **Steenwolpluggen** bieden de ideale basis voor een uniforme kieming en een hoog percentage verspeenbare planten. Alle steenwol pluggen zijn leverbaar in een standaard, zachte en harde variant en worden geleverd in kunststof trays van 60, 84, 104 en 126 pluggen. Onze pluggen zijn standaard ongeprikt, maar kunnen ook geprikt worden geleverd.

PRIKKER

Met de **Prikker** kunt u moeiteloos een gehele tray in één keer gelijkmatig prikken. Dit bespaart niet alleen tijd, maar versleten pluggen zijn hiermee ook verleden tijd. Dompel voor het beste resultaat, de tray in water tot dat de pluggen geen water meer opnemen.

Verkrijgbaar in P60, P84, P104 & P126 variant (afhankelijk van de gebruikte tray).
